

# ADELAIDE AIRPORT TERMINAL EXPANSION PROJECT

## WATPAC

**Adelaide Airport Terminal Expansion work will support forecast passenger growth to 2029 and include major expansion and refurbishment works of the existing terminal to provide a larger international departure area, more airport services and an enhanced layout.**

**DATES:** 2018 - 2019 | **LOCATION:** Adelaide, SA

### OUR INVOLVEMENT

Capisce Qs is currently engaged by Watpac to provide cost estimation support to their estimating team, works include contract administration work and tender packages review.

### VALUE ADDED

Capisce Qs has provided WATPAC with a member of our team to provide on-site estimating assistance for the entire duration of the project. This fresh outlook on the project has highlighted risks and opportunities across many packages keeping our client informed ahead of critical time issues allowing strategic decision making to ensure success for the project.
